

Taking the Kleene star of above language.

Rules of Kleene star:

R1: right the initial state with the final state (same as concatenation)

R2: Repeat initial second time with new z state.

Traversal Table According to the rule

State Name	a	b
x1 = z1	x2 = z2	x1 = z3
x2 = z2	x2 = z2	x3 x1 = z4
x1 = z3	x2 = z2	x1 = z3
x3 x1 = z4	x3 x1 x2 = z5	x3 x1 x1 = z4
x3 x1 x2 = z5	x3 x2 x1 = z5	x1 x3 x1 = z4
